

CONCRETE COATINGS COMPLETE PRICING GUIDE

COATING	INSIDE/OUTSIDE	WHERE USED	WHY USED	PRICE PER SF
 Penetrating Concrete Sealer	May be used inside and outside.	Driveways, walkways, porches, patios, garages, warehouse, shops, aircraft hangers	Seal & protect concrete from moisture damage, freeze/thaw cycle, ice melt, road salt. Easier to sweep & keep clean	\$1.25 - \$1.75
 Concrete Grind & Seal	May be used inside and outside.	Any areas of concrete in need of renewal and refreshing. Commercial businesses, restaurants, warehouse, shops, aircraft hangers, interior of homes	Renewing the look of concrete surfaces, aesthetic improvement, ease of cleaning, chemical and/or wear resistance	\$3.00 - \$3.50
 Concrete Grind, Stain & Seal	May be used inside and outside.	Any areas where a new custom look is desired. Commercial businesses, restaurants, patios, walkways, pool surrounds, interior of homes	Renewing the surface, adding color for a custom look, changing the appearance with staining to create a new fresh look. Ease of cleaning	\$3.50 - \$4.00
 Moisture Stop Primer	May be used inside and outside.	Any area where moisture intrusion may be of concern	Reducing the vapor transmission through the slab to allow for any applied flooring materials to successfully bond with the concrete surface	\$1.00 - \$1.50 added to cost of any coating below
 Thin Film Epoxy Coating	May be used inside and outside (with addition of poly topcoat).	Garages, shops, warehouses, kennels, restaurants, aircraft hangers, pump rooms, mechanical rooms, or any area where protection, wear, chemical resistance or a new "fresh look" surface is desired	Renewing the look of concrete, adding protection from stains, chemicals and wear	\$3.00 - \$4.00 Slip reduction additive - add \$0.75 Clear, UV stable coat for exterior use - add \$1.50

COATING	INSIDE/OUTSIDE	WHERE USED	WHY USED	PRICE PER SF
 <p>Self-Leveling 100% Solids Epoxy</p>	<p>May be used inside and outside (with addition of poly topcoat).</p>	<p>Garages, shops, warehouses, pump rooms, mechanical rooms, commercial kitchens, aircraft hangers, or any area where protection, wear, chemical resistance or areas needing a thicker, impact or wear resistant surface for high traffic or heavy use equipment</p>	<p>Same as Thin Film Epoxy but used for areas needing more protective coverage, or that are affected by heavy traffic or high impact. Self-levels & fills in small cracks & damaged areas. System can also be anti-static (ESD) or spark resistant</p>	<p>\$5.00 - \$6.00</p> <p>Slip reduction additive - add \$0.75</p> <p>Clear, UV stable coat for exterior use - add \$1.50</p>
 <p>Decorative 1/4\"</p>	<p>May be used inside and outside.</p>	<p>Garages, patios, walkways, pool surrounds, warehouses, shops, aircraft hangers</p>	<p>Seals & protects from chemicals & stains, waterproof, easy to clean, adds a decorative finish to concrete</p>	<p>\$5.50 - \$6.50</p> <p>Slip reduction additive - add \$0.75</p>
 <p>Decorative Hybrid Flake Polyurea & Polyaspartic Coating</p>	<p>May be used inside and outside.</p>	<p>Garages, patios, walkways, pool surrounds, warehouses, shops, aircraft hangers, commercial businesses</p>	<p>Seals & protects from chemicals & stains, waterproof, easy to clean, adds a decorative finish to concrete that is different than the standard 1/4' flake</p>	<p>\$6.50 - \$7.50</p> <p>Slip reduction additive - add \$0.75</p>
 <p>Tidalstone™ Polyurea & Polyaspartic Coating</p>	<p>May be used inside and outside.</p>	<p>Commercial businesses, restaurants, garages, patios, walkways, pool surrounds, warehouses, shops</p>	<p>Used when you want a decorative coating that mimics stone and comes with a flat finish</p>	<p>\$7.00 - \$9.00</p> <p>Slip reduction additive - add \$0.75</p>
 <p>Quartz Floor Coating</p>	<p>May be used inside and outside.</p>	<p>Commercial kitchens, locker rooms, kennels, shops, warehouses, pool surrounds</p>	<p>Same as above coatings but used when you need a thicker coating & more slip resistance</p>	<p>\$8.00 - \$12.00</p>
 <p>Urethane Cement</p>	<p>May be used inside and outside.</p>	<p>Any areas dealing with food or drug processing, animal handling, dairies, bottling liquids, temperature impact hot or cold</p>	<p>When water is being utilized in production, hot or cold, damp areas needing to be sealed, anti-bacterial and very easy to clean, highly impact resistant</p>	<p>Add Integral Cove Base - \$9.00+ per linear foot of wall where cove is to be installed</p>

COATING	INSIDE/OUTSIDE	WHERE USED	WHY USED	PRICE PER SF
 <p>Integral Cove Base</p>	May be used inside and outside (with addition of poly topcoat).	Added to commercial kitchens, food handling areas, medical, laboratories, restrooms, breweries, washout rooms and containment areas	For areas that need to be cleaned easily and kept sanitary. Most areas that handle any human or pet consumable products require integral covered floors. Creates a "dishpan" affect by continuing coating up a vertical wall	\$9.00+ per linear foot of wall where cove is to be installed
 <p>ESD or Conductive Epoxy</p>	For inside use only	Warehouse, laboratories, or any areas needing spark proof or grounded flooring for ESD (electro-static-dissipative) needs	All electronic manufacturers need this type of flooring to be compliant with ISO# 10605 standard which is all ESD and Conductive epoxy used in manufacturing and service	\$10.00
 <p>Deck Coating - Acrylic 11/10 Westcoat System</p>	For outside use only	Driveways, walkways, corridors, patios, stamped concrete areas. Bare or coated concrete, surfaces can be stained and sealed	Renew surfaces using a pigmented system. Stain can be added to the system as well as a clear polyurethane topcoat with choice of gloss level	Bare, coated or stamped concrete \$5.00+
 <p>NewCrete™ Concrete</p>	May be used inside and outside.	Driveways, walkways, patios, corridors, or any area where concrete is severely damaged	Is used in lieu of removing and replacing damaged concrete	\$3.00 - \$4.00
